

It is my understanding that Sinclair Broadcasting has decided to air an anti-Kerry documentary days before the election.

It is also my understanding that all broadcasters, including Sinclair, use the public airwaves free of charge, and they are obligated by law to serve the public interest. How does showing a one-sided partisan program like "Stolen Honor" serve the interest of all our citizens? Sinclair would like to use their power to sway this election -- there is nothing "bi-partisan" or in the public interest about this kind of action.

Please do not allow Big Media to be one-sided and in this way harm our democracy. Thank you.
